WEALTH MANAGEMENT

## TAD TRAMMELL

Director of Operations

Tad Trammell has been Laird Norton Wealth Management's Director of Operations since 1999. Tad is responsible for key back-office operations, including the production of timely investment-performance reports for the firm's clients, monitoring client accounts, arranging for fund transfers and tracking the cost basis of transferred securities.

Tad works closely with LNWM's client-service teams and also directly with clients' accountants. By providing clients' CPAs with clear, concise information, Tad and his team free up LWNM advisors to focus on client solutions, while helping to reduce clients' CPA bills. Tad is also the go-to person for questions about LNWM's account tracking and management system.

Prior to joining LNWM, Tad worked as Director of Student Financial Services at the Art Institute of Seattle, where he oversaw the administration of multi-million dollar annual budgets and aid programs. Tad has a bachelor's degree in history from the University of Washington.
